

## MRS. OSBORN LOSES ANOTHER ACTRESS.

Grayce Scott Suddenly Resigns from Fashion's Playhouse Company.

The third resignation, that of Miss Grayce Scott, from the company at Mrs. Osborn's playhouse is causing much gossip among the actors in and out of the theatre. Miss Scott played the role of Phoebe Dare in "Tommy Rot," and her departure, and arrangements have been made to fill her place with Miss Claudine Sharpe, a dancing girl. Mrs. Osborn admitted to-day that other changes were possible and that some of her leading players might be affected. She intimated that things at the theatre were not at all to her liking. She is greatly put out by the freedom which some of the actors have taken with their lines. One joke which was interpolated ran as follows: "A man dropped in to see his lady love and found she was in her bath and could not come down. He called up and asked her to slip on something, so she slipped on the stairs and came down."

This enraged Mrs. Osborn so that she decided upon heroic measures. Other liberties with the text of a similar na-

ture added to her anger. She says that she is determined to make examples of those who defy her. Miss Scott refuses to discuss her abrupt resignation.

## OPERATIC TENOR WILL BE HEARD ONLY IN CONCERT.

ANDREAS DIPPEL

## DIPPEL ARRIVES FOR CONCERT TOUR

Former Tenor of the Metropolitan Opera Company Will Devote Season to Song Recitals.

Andreas Dippel, the great Wagnerian tenor, balanced himself on the edge of a tea-table in his rooms at the Majestic Hotel, and talked of his coming concert tour to an Evening World reporter who was perched on the window-sill. In an adjoining room Mme. Dippel and her maid were inspecting large and numerous trunks. Every available chair, sofa and divan in the apartments was occupied with flowers. All kinds of flowers in all kinds of shaped masses with all kinds of kind wishes tacked onto them. This was the reason for the unconventional postures of host and interviewer. "It would resemble a catastrophe," exclaimed Mme. Dippel, poking her head through the bedroom portiere in apology. "were it not so delightful!" The Dippels arrived on the Kaiser's birthday, the first of the year. The former tenor of the Grand Opera Company will devote his time entirely to concert work. His tour will extend from New York to San Francisco. He will be accompanied by Paul Eliser, a well-known European pianist. In cities which seem to be inoculated with the Wagner virus, his concert programme will be made up exclusively of Wagnerian excerpts. The singer expects his tour to last for four five months. At its conclusion he will probably return to Europe. The tour will open in Newark, N. J., on Nov. 7, and on Nov. 9 he will open in New York at the Metropolitan Opera House. In this city he will be assisted by Mlle. Zelle de Lussan and Marcel Journet.

## "GOOD MORNING;" LET'S GET MARRIED

Phelan and the Widow Quillan Broke All Records in Their Nine-Hour Courtship.

Fell in love, was engaged and married in the short space of nine hours is the record held by Mrs. Libbie Quillan Phelan, of No. 124 Charles street, whose marriage to Michael J. Phelan, of No. 24 Dod street, Weehawken Heights, was celebrated by the Rev. Alexander Richter, pastor of the German Lutheran Church, of Hoboken. In brief, it was a case of "Good morning; let's get married." The couple met for the first time at the home of Mrs. Phelan, then the widow Quillan, at 11 o'clock in the morning. After a two hours' wooing they were engaged, and at 8 o'clock in the evening they began the celebration of their honeymoon.

## MARIE DRESSLER BETTER.

**Actress Slept Well and Her Condition Is Much Improved.** At the Louella apartment-house, No. 139 West Forty-fifth street, it was said to-day that the condition of Marie Dressler, who has been confined to her rooms with a severe illness, was much improved. The actress, it was said, slept well last night and was much refreshed. Miss Dressler has been ill with a malignant fever caused, it is said, by overwork. She sees only her physician, Dr. Frauenthal, and Charles Zimmerman, her manager.

## CLYDE FITCH HAS A SPRAINED ANKLE.

Ill-Luck Again Pursues the Playwright When He Is About to Stage New Play.

Clyde Fitch, the playwright, is suffering from a sprained ankle. The accident comes just at a time, too, when Mr. Fitch is most anxious for the use of both legs, as Mary Manning gives the first performance of "The Stubbornness of Geraldine," his new play, at New Haven Friday night. The accident occurred in front of the Garrick Theatre as Mr. Fitch stepped from his carriage to attend a rehearsal of the play. He slipped as his foot struck the pavement and his ankle was turned, tearing several ligaments. He fainted from the pain and was carried into the theatre. Mr. Fitch declares he will attend the opening at New Haven, but it is considered extremely doubtful if he can keep his word. He is still in great pain and it may be several days before he is able to leave his home. He thinks this is an unlucky year for him. Last spring he broke down under the strain of heavy work and went abroad. While in Italy he was threatened with an attack of appendicitis. He escaped an operation and went to Switzerland, where, after a long rest, he recovered.

## BRAIN FOOD

Is of Little Benefit Unless It Is Digested.

Nearly every one will admit that as a nation we eat too much meat and too little of vegetables and the grains. For business men, office men and clerks, and in fact every one engaged in sedentary or indoor occupations, grains, milk and vegetables are much more healthful. Only men engaged in a severe outdoor manual labor can live on a heavy meat diet and continue in health. As a general rule, meat once a day is sufficient for all classes of men, women and children, and grains, fruit and vegetables should constitute the bulk of food eaten. But many of the most nutritious foods are difficult of digestion, and it is of no use to advise brain workers to eat largely of grains and vegetables where the digestion is too weak to assimilate them properly. It is always best, to get the best results from our food, that some simple and harmless digestive should be taken after meals to assist the relaxed digestive organs and several years' experience have proven Stuart's Dyspepsia Tablets to be a very safe, pleasant and effective digestive and a remedy which may be taken daily with the best results. Stuart's Dyspepsia Tablets can hardly be called a patent medicine, as they do not act on the bowels nor any particular organ, but only on the food eaten. They supply what weak stomachs lack, pepsin diastase, and by stimulating the gastric glands increase the natural secretion of hydrochloric acid. People who make a daily practice of taking one or two of Stuart's Dyspepsia Tablets after each meal are sure to have perfect digestion, which means perfect health. There is no danger of forming an injurious habit, as the tablets contain absolutely nothing but natural digestives; casein, morphine and similar drugs have no place in a stomach medicine, and Stuart's Dyspepsia Tablets are certainly the best known and most popular of all stomach remedies. Ask your druggist for a fifty-cent package of Stuart's Dyspepsia Tablets, and after a week's use note the improvement in health, appetite and nervous energy.

## MILLING DIFFERENCE

After we buy the best, each single grain is cleaned and judged separately by machinery. The machine leaves nothing to chance. Thin and woody, flat and flavorless, are thrown out. Here is a difference of time, care and thoroughness. The groat that is good enough to pass this test is indeed different from other grain. It begins to have a right to the name of

# Quaker OATS

Best of the Best

Costs you no more than oats which are not as wholesome, and which have not been milled as carefully. Quaker Oats is just as easy to buy. You have only to say "Quaker" distinctly.

## FLAVOR DIFFERENCE

Pan-roasting is where most millers save time. Their oats are runned-milled, and profit's made.

## GRAIN DIFFERENCE

The Quaker quality of grain is not easy to find. To supply the needs of the Quaker mills we must search the country far and wide. We watch where the good oats grow. For even as it grows the difference begins. Sun may shrivel—or too much rain spoil the crop. But where the crop is best, we are there to choose the best of the best. There is that much difference in the Quaker grain—before it starts for the Mill. This is only the first difference in
